ABOUT ART GALLERIES

Unison World's Art Gallery products contain artwork on a variety of subjects. These products do not have an actual program on the disk, only graphic shapes. To use an Art Gallery, you must first load another program that can use the artwork, such as PrintMaster Plus and NewsMaster.

USING ART GALLERIES WITH PRINTMASTER OR PRINTMASTER PLUS

With floppy disk drives:

1. Load PrintMaster or PrintMaster Plus.

2. Place the Art Gallery disk in the disk drive.

3. When you are choosing graphics for your creations, select "Another Disk." The graphics in the Art Gallery disk will now appear in the menu.

NOTE: Do not save custom graphics that you have created with the DRAWING PAD onto the Art Gallery disk. There is not enough room for additional art, so you could loose the Art Gallery shapes as well as your new creation.

USING ART GALLERIES WITH OTHER PRODUCTS

Follow the manufacturers' directions for loading clip art into the product.
